

VRRRA-CCB Committee Meeting

Draft Minutes

DATE: 20 January 2022

VENUE: 14 Elizabeth Drive and Zoom

Start TIME 4:00 pm – Meeting closed at 6:30pm

I acknowledge the traditional owners and custodians of country and their continuing connection to the land, culture and community. I pay my respect to elder's past, present and future

Apologies from; John Ross and Margaret Willard

In Attendance: Ken Buckley, Dawn Thompson; Roslyn Vickery, Tony Thompson, Norm Vickery, Bob Pullinger and Lou Casmiri.

Minutes from 21 October 2021 Committee Meeting (copy attached)

Motion: That the draft minutes of Committee Meeting held on 21 October 2021 be adopted;

Moved by Roslyn Vickery seconded by Tony Thompson – Was Resolved

Secretary Report

Lou Casmiri reported that no snail mail was received since last Committee Meeting

It was agreed that as all Committee members receive all email sent to VRRRA.CCB@Gmail.com there was no need to table the list at Committee Meetings and that the list of all email since last meeting (20 October 2021) be **attached to the minutes** for members to view the list and if of any interest to request copy of the email via VRRRA.CCB@Gmail.com

Treasurers Report – (copy attached)

by Bob Pullinger

Motion: That the statement of financial position and performance for the period ended on 31 December 2021 be received –

Moved by Norm Vickery seconded by Dawn Thompson – Was Resolved

Public Officer

Bob Pullinger informed the meeting that he will submit the annual financial statements within 30 days of the AGM.

The Delivery Program & Operational Plan (DPOPs) Update

Bob explained the new central district engineer is making good progress with induction since joining council and taking responsible for the DPOP's in the by and bison area.

It is expected feedback will be available for the VRRRA February meeting on the budget bid process and any responses from other departments on the first pass bids now that the Christmas holiday period is coming to an end.

What might be of interest is one of the bids is for safety, in particular storage facility for the little nippers and provision of Life Saving Services at the beaches in the in Vincentia and nearby areas.

Council's duty of care for swimmers and paddlers to the sighting of sharks in Jervis Bay over the Christmas period was a media release "swim at your own risk". It is hoped Council will support the budget bid by the VRRRA and follow the example set by Wollongong council with its commitment to safety at their Beaches. This could be done by providing a mobile lifesaving service at the beaches in Jervis Bay whereby a lifesaving platform could be towed from road head to road head or beach and where a clear line of sight be established for the lifesavers. This was done at many beaches by Wollongong Council by removing vegetation and providing a clear line of sight. The vegetated sand dunes have proved the effectiveness of a sandy beach which allows the energy of waves to dissipate as the water flows unimpeded over the sand. Beach Care Illawarra share the success and experiences over many years and storms in the this link : <https://www.facebook.com/BeachCareIllawarra>

11 December 2019

Bellambi Beach Berm works have begun. Wollongong Council is to be congratulated on this continuing program aimed at increasing safety by improving line-of-sight for life savers. Environmental benefits include reduced scarping (erosion) by allowing long, dissipative wave run-ups during storm surges. The newly created low wind profile will allow for better sand movement during low wind periods, meaning faster beach repair times.

In the ensuing years since the original trial at Woonona, we've seen small crabs re-inhabit the back of the beach, seabirds are now regularly seen resting on the created wide berm (Albatross, Gulls, Terns, Sooty Oyster Catchers and even Plovers). Flocks of galahs now feed on the newly planted spinifex, and there has never been any erosion since.

It was suggested at the meeting that such facilities could be built together with amenities block and storage facilities for little nippers on the council owned vacant block of land in Ilfracombe Ave. Collaboration could take place with adjoining property owners to provide engagement and empowerment, for adjoining owners, the lifesaving community and certainly a safer environment in the waters of Jervis Bay.

One could expect the newly elected Councillors would see this as sharing the commitment of many organisations for "the residents and visitors of Shoalhaven to return home in the same state as they arrived".

The VRRRA seek the support of the Councillors to provide safety as a high priority and acting with a sense of urgency.

Paths and Cycleways update

Ken Buckley reported that it his is understanding that an update is expected shortly from the Central District Engineer on the start and finish dates date for the new Berry Street pathway and pedestrian refuge on Elizabeth Drive, which is to connect Bayswood (i.e. via the services road which currently ends at the treatment works) to Collingwood Beach.

Sub-Committees and Groups Reports

Plantation Point Playground Sails Project Update

Ken Buckley reported that the posts construction is progressing and that should be ready for deep heat galvanising during the next week or so.

Lou Casmiri reported that Council have requested that no work (closing the playground) must take place until end of summer.

Bocce Court update and Bocce Club creation

Lou Casmiri informed the meeting that the Bocce Court is now completed and it has been used by many including for playing Cricket, Golf Putting and other games by children and adults.

Lou informed the meeting that although there was an understanding that Council would build the footpath to the court for wheelchair access, we have now been informed that there are no funds available and that it will be considered for the 2022-23 budget. Lou also mentioned that he forwarded the correspondence to Councillor Greg Watson and it is his understanding that Greg has requested Director Jane Lewis to see if the request for the path can be expedited.

In reference to creation of a Bocce Club, Lou shared with the meeting the vision that, in concert with Council Community Connections team, there is an opportunity to have a CCBs Bocce fun day.

Vincentia Golf Club

Ken Buckley informed the meeting that there has not been a great deal of additional information, however, as a matter of interest it appears that the "Vincentia Golfers Newsletter"-has been renamed as "The Vincentia News" and in his opinion it has the potential to create some confusion in our community about ownership and accountability of articles published in this "The Vincentia News" therefore Ken will have a conversation with The Editor- Stuart Salvage.

Vincentia Mall Project Update

Norm Vickery reported that he had spoken to Ros Holmes from SCC to ascertain where the project was up to. Ros Holmes advised that a tenderer has not been accepted due to the Covid crisis, council elections and an overrun in costs for the project. They were arranging a crisis meeting today to try to adopt a strategy to be put to the next Council meeting.

Ros Holmes mentioned that Council is fully supportive of the project but because all council tenders are now between 30-40% dearer this could not be built in the current form unless more monies can be committed or alternatively a reduction in the design concept. We await further information.

Bay & Basin Leisure-Centre update

Ros Vickery reported that she had spoken to Susan Edwards from SCC. Susan advised she is hoping to engage a consultant to undertake the new design. It is scheduled to go before the February meeting of Strategy and Assets. However, because of so many new Councillors and the return of staff after holidays, she was unsure if it would be presented at the next meeting. There will be two reports one for Tender and one confidential. We will endeavour to get a monthly report from SCC.

Collingwood Beach Preservation Group and Coastal Management Program – (copy attached)

Bob Pullinger tabled the attached report which was supported in discussion.

Vandalism Reporting

The committee agreed that vandalism by anyone in any form is totally unacceptable and that Council's ongoing updates and expectations can be found at

<https://getinvolved.shoalhaven.nsw.gov.au/collingwood-beach>

Olympic size swimming pool for Bay and Basin – Update on sub-committee creation

Lou Casmiri reported that on 13 January Ken Buckley and I had a catch-up with Janet Langridge and Deborah Shapira with the aim to establish a sub-committee for the construction of a 50-metre Olympic size Pool at the Bay and Basin Leisure Centre. At the meeting Janet suggested and later prepared a draft letter to be sent to all stakeholders in Bay and Basin (see attached) and Lou undertook to draft the aims and objective of the sub-committee

“The aim and objective of the sub-committee is to establish resources for:

Contacting stakeholders seeking their support and working in concert with Shoalhaven City Council to submit grant applications to State and Federal Government for the construction of 50 metre (Olympic-size) Swimming Pool at the Bay and Basin Leisure Centre for our Bay and Basin Communities ASAP.

It was agreed that the letter is an excellent letter and can be used to contact stakeholders and that the draft “aims and objective” is a good start for when the sub-committee is established and meet to finalise and publish the final letter with the aims and objectives.

Lou also reported that Annette Pham and Daniella Poschl have contacted him requesting to join the sub-committee.

It was agreed that Lou will coordinate the first official meeting for the sub-committee preferably prior to the 17 February General Meeting to keep members informed and to seek further members contribution.

Constitution update

Ken Buckley reported that, with the lack of opportunity to conduct adequate discussion at meetings because of Covid and lockdown and given that it was always the intention of the current committee that if the changes were approved, the timing would be such that there would be adequate time for members to comply with the new meeting requirements proposed in the changes, any further development or advancement in this respect has now been put on hold until after the AGM.

Other Business

- **Update on Temporary Toilet facilities at Collingwood Beach**

It was agreed that it would be of value to contact Council to ascertain if they are aware of the volume of usage and or issues related to the supplied Porta-Loo

It was suggested that we should submit to members at our February General Meeting the creation of a sub-committee for the establishment of toilets, showers and potentially other facilities at the vacant Council owned land at Ilfracombe Street Vincentia.

- **Major Event Promotion**

Bob Pullinger reported that our latest correspondence with Elite Energy event is: White Sands Walk is to be held on 18th September 2022 moving slowly. Elite Energy and VRRRA will meet with Tourism at Council in the next few months to discuss funding opportunities. No need for any discussions just yet, and as you would understand, we are in the busiest time of our year

Husky planning for the Triathlon from Feb 25th to Feb 27th 2022 is in full swing and planning to be a little bigger than last year with a lot more community engagement with FREE movie nights in the park, Big Screens, Expo site now in the car park next to the bottle shop etc. At this stage, the concerns around COVID focus on indoor activities and not on moving outdoor sporting events

If any VRRRA members want to support Big Husky, that would be great, but I do understand that this may be a tough call.

<https://www.eliteenergy.com.au/event/ultimate-husky/>

- **Hold my Hand update and future strategy**

Bob referred to Council's media release which had been circulated to the committee and explained It is hoped to get something in the safety hot spots as soon as Bob has some signs refurbished and network for installing is arranged.

CCB's need to provide their own funds to buy replacement signage for the signage which is past its useful life. The VRRRA has funded its signs from donations received from Elite Energy who makes generous donations for the hours volunteers undertake for marshalling etc at the Huskisson tri-Athlons. Members are encouraged to contact Elite and indicate the dates and times they are willing to volunteer, and request the donations be paid to the VRRRA and marked for supporting the Hold My Hand signage.

Expression of interest would be appreciated from VRRRA or CCB Members willing to work in kind to erect and take down signs. There has been continued dedication of a few members doing the work in kind for some time now. It is a means of spreading the message of safety and spreading signage to other hot spots.

- **ZOOM Meetings proposed Strategy**

It was unanimously agreed that until VRRRA-CCB has permanent suitable venue with the required technical infrastructure, no General Meetings will have Zoom access. However, it was agreed that whilst Committee Meetings are held at 14 Elizabeth Drive, Zoom access can be provided to all committee members or Council staff who are unable to attend the meeting in person.

- **Cruise Ships in Jervis Bay**

Ken reported that, we awaiting advice of the scope of cruise ships to be allowed entry to Jervis Bay from appropriate government department.

Ken also mentioned that as the matter was not formally put to members, VRRRA does not have a position on the matter, However, VRRRA encourages all members to make their own submission

Australia Day at Nowra Showgrounds

- Lou Casmiri suggested that as a trial for VRRRA having presence at community events we should accept the invitation from The Rotary Club of Nowra to have a fund-raising stall at the event. It was agreed and Lou will coordinate with volunteer/s for the day

- **Meeting with Ward 2 Councillors.**

Ken suggested the committee arrange to meet with the ward 2 Councillors to provide an understanding of the work being done by the VRRRA to achieve outcomes for the community. This was supported by the committee.

Lou undertook to contact Councillors to ascertain availability and best time to meet

- **Nowra Road Bypass;** it was agreed that although the Nowra Bypass is not necessarily a Vincentia direct related issue, it does have an impact to our Vincentia way of life and transport/communication with the northern part of Shoalhaven and beyond therefore, it is essential the VRRRA starts the conversation with members and dialogue/support with stakeholders.

Next VRRRA-CCB General Meeting is scheduled for 17th of February 2022 at 7:30pm in the Vincentia Country Club

Matters arising from Treasury Report in September Treasury Report.

Certain actions to be undertaken are still to be actioned, namely:

- Refunds of duplicated payments
- Impact of community lead projects - quote be obtained from Booth & Co for an audit the VRRRA December 2021 accounts
- Confirmation of bank signatories
- Approval of current invoices on hand

Motion: That the statement of financial position and performance for the period ended on 30 September 2021 be received

Moved by Tony Thompson seconded Ken Buckley - Resolved unanimously

Public Officer

Storage of records

Bob has reviewed the updated Dept of Fair-Trading site which is now more explicit in respect of the period for retaining particular records, e.g.

- Financial records are to be kept for a minimum of 5 years after they were made
- documents that might relate to potential litigation should not be destroyed
- minutes of meetings are the official written record of the business transacted at a meeting and need to be retained indefinitely

It is Bob's understanding the majority of records handed over by previous office holders comply with the record keeping requirement of the Dept Fair Trading.

In view of there not being commercial storage facilities available at an affordable price and the longevity of the VRRRA and original minute books etc the VRRRA should take up Lou's offer to store the records for the immediate time frame.

Bob will issue a check list referencing the updated Dept of Fair Trading "records storage requirements" which is to be used by holders of any VRRRA records to determine what can be destroyed or needs to be held for storage by Lou.

Further to the most recent external audit conducted by Booth & Co in 2018 the minutes should contain the signature of the Chairman or whoever presided over the meeting where the minutes were confirmed.

The Delivery Program & Operational Plan (DPOPs) Update & New

Bob Pullinger mention that in his opinion, It is apparent the performance delivery on current DPOP's is severely impacted by lack of resources. This is unfilled positions rather than building empires/silos through new positions. The lack of performance is creating a very poor perception of Council across the community. Council is requested to place high priority in filling the positions or outsourcing in the "can do" and performance driven department of City Services.

Budget bids for 22/23- and ten-years capex 23/32 are due with the VRRRA by 11th November for review, collation and submission to Council by the VRRRA. Members are invited to inform the VRRRA of any requests.

Paths and Cycleways update

Council advised Ada St connection needs to be included in the mapping of the VRRRA SUP.

Despite Council's recent motion separating the nature and hard stand walkways/cycleways connecting Plantation to Blenheim Beach, it is VRRRA understanding that there is still overarching and diverse community desires for a solution along the Orion Beach section of the round the Bay walkway.

Sub-Committees and Groups Reports

Plantation Point Project Update

Sails over playground - Ken Buckley reported that before we commit and start installing the shade sail, we need to discuss with council the overall plan for the playground and if there has been any development since the "Focus group - Plantation Point Playspace" teams meeting with Carla Pignatelli 18th Aug.

Bocce Court – Lou Casmiri reported that builder (Andrew Spinelli) has now submitted the final SWMS to Council and that meeting on site will take place on Thursday 28 October with builder and Council staff with the aim to establish start date for the construction of the court.

Vincentia Golf Club

Ken Buckley informed the meeting that, current indications are any changes or construction would be some years down the track. The VRRRA will continue to monitor and report as required, however it is extremely important that we as Vincentia residents and ratepayers encourage a membership drive to join the Country Club (very cheap) and vote in the two nominees for the board (Noel Bourke and Peter Laver) at the next AGM. We will then at least have an open voice in future commitment of the Club.

Vincentia Mall Project Update

Norm Vickery informed the meeting that it is his understanding that two signs as well as the notice boards had been included in the tender price.

Norm also mentioned that he could not get an answer from Council about Mat Mackenzie suggestion to Council to erect a large sign or two similar to a real estate type sign with a photo of the design and a bit of information about the project. This would be of interest to the influx of visitors to the area over the Christmas period and would help to keep them engaged and get them a bit excited about Vincentia Burton Street future look and feel.

Bay & Basin Leisure-Centre update

There was no report and it was agreed to leave in Agenda for next General Meeting

Collingwood Beach Preservation Group

No further progress on outstanding actions on matters in the previous month report except the commencement of the works on the upgrade to the storm water collection from the landward side of Bayswater St where nearby properties and buildings were flooded because of rain events.

Coastal Management Program –

Bob Pullinger reported that; A meeting of the Central CMP Committee was held on 19th October 2021. A precis of significant matters discussed at the meeting were:

CC21.3 Shoalhaven Beaches Asset Management Strategy Progress Report – Central This report addresses the number of Coastal Access ways and an objective of the CZMP for there to be a reduction in the number of access ways.

It was reported 4 of the 14 accessways at Collingwood Beach would be closed down. Any such action would be subject to a recent resolution passed by Council for any action in respect of closure of accessways be withheld until the new Council is elected.

The report prepared by Advisian did not take into consideration the upgrade of the Storm Water projects for Bayswater St and other discharge points along Collingwood Beach and elsewhere, including Nelsons Beach, in Jervis Bay reported at recent Council meeting.

Status CMP Project. The completion of the CMP for Open Coast and Jervis Bay has been put back to June 2023.

Coastal Zone Management Plan “CZMP”. Application is being made by Council for completion of activities including emergency action plans to be extended from December 2021 for a further two years.

NSW Coastal Conference 2021.

This conference has been postponed to mid-2022 at Byron Bay. Because “community engagement” is one of the key topics the SCC representative on the Conference Organisation is to raise and request a webinar be made of the Coastal Conference or alternative arrangements be put in place by Council for attendance by CMP committee members as previous conferences. The webinar being the preferred option.

Other Business

- **Temporary Toilet facilities in peak summer tourism periods at Collingwood Beach**
 - There was no report and it was agreed to leave in Agenda for next General Meeting
- **Major Event Promotion**
 - White Sands Walk – Count down - rescheduled to 18th Sept 2022
Good progress has been made on the website by Elite Energy on the website, identification of sponsors and grant available.

- **Hold my Hand**
 - Bob Pullinger informed the meeting that, discussions under way with SCC Road Safety Officer in respect of
The Little blue Dinosaur Group's request for a visit to the Shoalhaven to team up with the VRRRA for the launch of Shoalhaven 2021 Hold My Hand safety campaign.
Council's offer to sponsor posters at bus shelters to be nominated by the CCB's.
Council collaborating with the VRRRA on using funds raised from volunteer fund raising for Hold My hand Garbage bin stickers.
- **Volunteering for Fund raising** at triathlon weekend 6th & 7th November Bob Pullinger
 - Members are reminded of Elite Energy donations to the VRRRA as reward for volunteering as marshals at this event.
- **Olympic size swimming pool** –
 - It was agreed that the subject be included in next General meeting Agenda with the aim to seek interest to form a committee

Next General Meeting

It was agreed that depending on Vincentia Golf Club general access rules for the day, a VRRRA-CCB Meeting is planned for 18 November 2021 and depending on members appetite and feedback a December meeting will also be planned.

Collingwood Beach Preservation Group– Sub Committee Monthly Report – January 2022

1. Action Plan for the Collingwood Beach Dune Vegetation Management Plan “CBDVMP”.

Council advised in detail in December 2021 a grant had been received to undertake June vegetation works which provides for :

- revegetation of approximately 1250 square metres of restoration
- fencing along the bike path with a set back of at least .5m from the bike track
- Improving site amenity which with
 - two bench seats
 - educational signage alongside the bike path to inform the community of plant species used in revegetation

Community can keep up to date by accessing the Get Involved Keep up to date with the project via Get Involved Process at :

<https://www.shoalhaven.nsw.gov.au/Projects-Engagement/Major-Projects-Works/Collingwood-Beach-Dune-Vegetation-Management>

Council is trusted this is an initial and partial step in council working towards full compliance with the New South Wales Coastal Dune Management Manual, appropriate vegetation to commit to community safety, compliance with the council resolutions and implementing a banksia management plan among other things which have documented in detail in the numerous CBPG monthly report's and deputations to Council.

It is extremely disappointing that individuals within SCC continue to ignore Councillor's resolutions instead pushing forward their personal preferences which are contrary to the NSW Coastal Dune Management Manual. Recommendations made by experts such as Pam Dean Jones, who is now on the NSW coastal council, on the appropriate vegetation for the dunes at Collingwood beach have simply been ignored. These recommendations were made in response to questions admitted after the roll out of a public meeting at Vincentian public school in 2006.

The CBPG has requested a meeting with the CEO to obtain an explanation as to why SCC are being allowed to pursue their own agendas.

2. Storm Activity

Collingwood Beach has survived numerous storms in 2021 with a resultant sediment movement, noticeable extension of westerly winds past October and the late start to summer with the dominant north easterlies which return sand to the incipient dune.

A quick survey of one of the transects reflected no loss of vegetated dune nor advancement upon the dune formed during the last major storm event in 2016.

There was notable loss of sand and damage to bridge pylons caused by large limbs from the dense vegetation west of the pedestrian bridge at the southern end of Collingwood beach after the abnormally large rain event from the landward side of the beach in the early hours of 12th January 2022, 118mm measured in Elizabeth Drive.

3. The status of the Coastal Management Program “CMP”.

The update from the latest meeting of the Central CMP committee on are accessible on the Council site for Meeting Agendas and Minutes.

https://shoalhaven.infocouncil.biz/Open/2021/10/CC_20211019_MIN_17462_WEB.htm

The committee was informed mid January 2022 of the State Government development of a new National Parks Management Plan for the next 10 years. Details can be found at :

<https://yoursay.marine.nsw.gov.au/>

Submissions close on 31st January.

4. Delivery Program and Operational Planning “DPOP” 21/22- and ten-year capex forecast.

Storm Water and other capital items for Coastal Management.

Stage 1, the upgrade of the local drainage in the catchment area at Bayswater St, east of Elizabeth Drive was completed in December. The upgrade of the piping under Elizabeth Drive and linking with pipework on the western side of the Drive, together with pooling of water where there is no kerb and gutter is expected to start after the busy holiday period.

Stage 2 for the harvest and discharge of the stormwater from the catchment area at Bayswater St , along the lines of the concept for the storm water discharge designed by City Services, will follow shortly after stage 1.

The other pressing locations for storm water catchment, harvest and discharge at Berry St, Montague St and Susan St are in the ten-year capex forecast.

The CMP will capture other storm water issues and opportunities for grant funding.

5. Monitoring of the Dunes.

The latest six-monthly survey of Beach took place in March 2021.

The results, which reflect further accretion of the beach, were, in the normal manner, submitted to Council.

6. Safety

(a) Shark Patrol.

Beach goers and walkers along the Collingwood pathway are encouraged to report any sightings

See February 2021 CBPG report for an update on various organisations or apps, including Wollongong beaches which monitor or report shark sightings,

(b) January 22 Storm – risks from fallen vegetation near the pedestrian bridge at southern end of Collingwood Beach

Erosion west side

erosion north side

Logs and damaged pylon

logs and erosion

marker buoy washed up

sand washed back a week later and now covers damaged section of pylon

B Pullinger, G Kruk, D Thompson, T Bowman, T Thompson
Sub Committee for Collingwood Beach Preservation Group

MOTION:

**Collingwood Beach Preservation Group – Sub Committee Monthly Report
The VRRRA/CCB accepts the sub committee’s report.**

20 January 2022

Dear

I am writing to your organisation, as well as a number of other similar bodies, on behalf of the Vincentia Residents & Ratepayers Association (VRRRA). The VRRRA is the Community Consultative Body (CCB) for the Vincentia area. The role of VRRRA is to represent the residents of Vincentia in securing improved resources and facilities for the area. As such, VRRRA is currently exploring the future construction of a competition sized 50 metre swimming pool, at the existing Bay & Basin Leisure Centre. VRRRA would welcome both your thoughts and hopefully your support for this proposal.

For those new to our beautiful area, the original Leisure Centre plans did incorporate an outside 50 metre pool. However, over time and subsequent planning changes, this concept was deleted. The thoughts at the original planning stages were that the Bay & Basin was the third major population area of the Shoalhaven, and with a rapidly growing young population, the need for a suitable swim centre was very important. This forward planning has certainly eventuated. Within our area, there are now four primary schools and one high school.

Both Nowra & Ulladula areas have 50 metre pools. Whilst our population currently does not match these urban areas, in time it will. We need to start the planning now, so we can provide the infrastructure that will be needed in the future. The construction of a 50-metre pool would benefit many varied groups in our area: school children, learn to dive, swim clubs & elite athletes. A 50-metre pool would also reduce the pressure on the existing 25 metre indoor pool.

This is a huge capital works undertaking, with an associated huge cost. Understandably, such a proposal will take time and probably funding from all levels of government. However, if we don't begin it will never happen. VRRRA is at the very initial stages of discussion. We will need community input and support to drive this initiative. I hope your organisation will join with us in lobbying for this much needed facility for our area.

VRRRA welcomes your feedback on this project and will endeavour to keep you involved as discussions and negotiations continue.

Kind Regards

VRRRA 50-meters Olympic size pool for Bay and Basin
Sub-Committee
